

Blankee

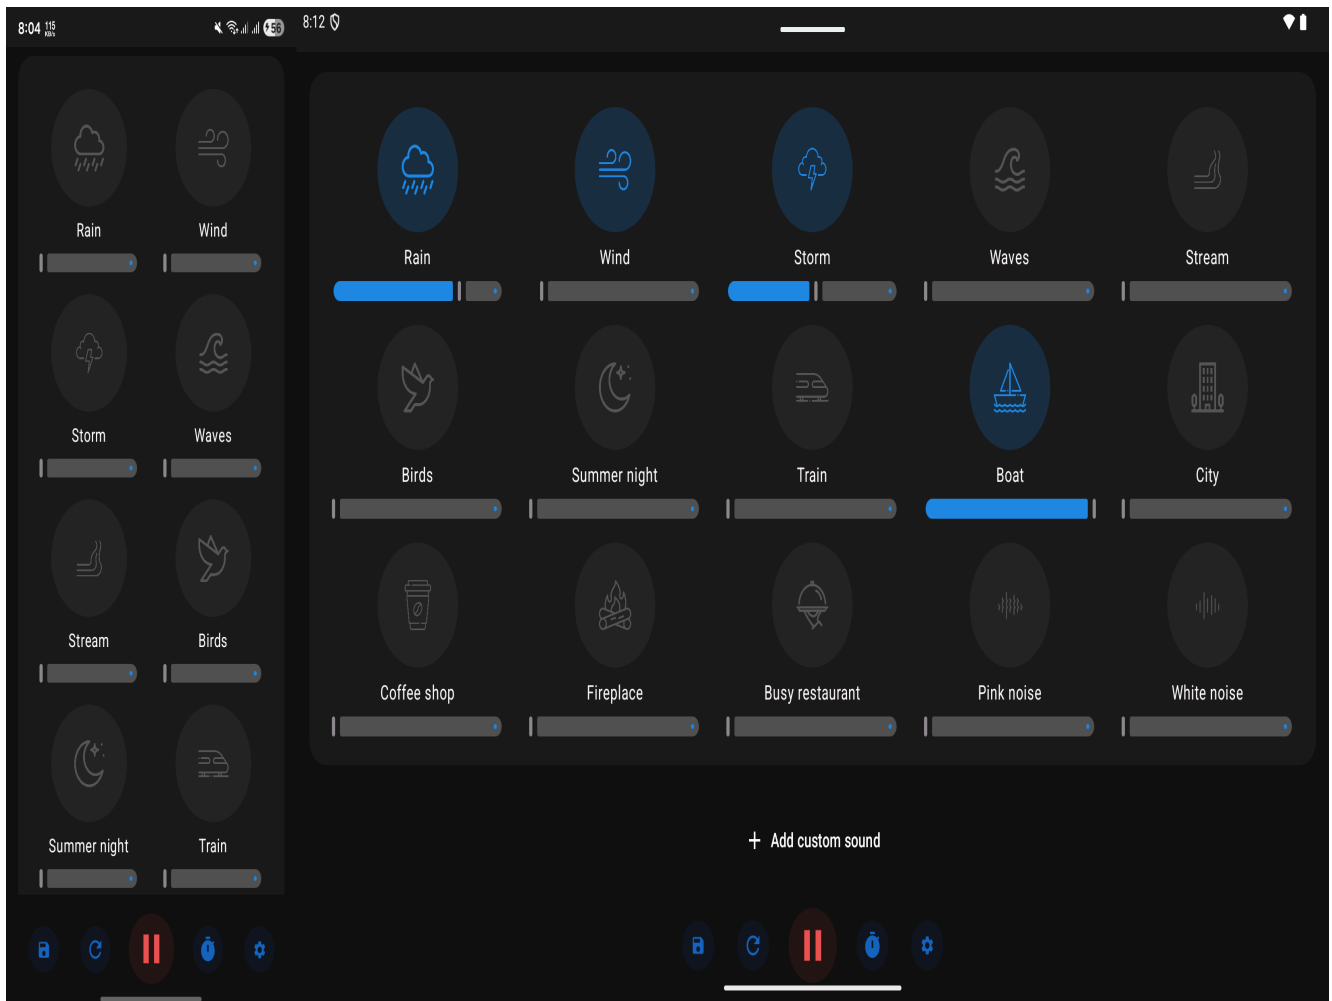

Listen to different sounds

license not specified

Android

Kotlin

Mobile (left) / Tablet (right)

Description

Improve focus and increase your productivity by listening to different sounds. Blankee can also be used to help you to fall asleep in a noisy environment.

Features

- **Multiple Ambient Sounds** – Rain, waves, fireplace, forest, wind, and more
- **Sleep Timer** – Set a timer, sound playing will stop automatically
- **Custom Sounds** – Upload your own audio files
- **Save Presets** – Create and save your favorite combinations for quick access
- **Dark & Light Mode** – Full theme support for comfortable use

- **Multilingual** – English, Spanish, Bengali, Hindi supported
- **Individual Volume Controls** – Mix and match sounds to your preference
- **Responsive Design** – Works beautifully on phones, tablets, and foldable devices

Installation

GitHub Releases

- Download the latest APK from [GitHub Releases](#)

Build from Source

Requirements
